

HYDRO 10

Mineral Clutch Fluid

Description

Hydro10 is a special oil for hydraulic clutch systems and where-ever the manufacturers demand a mineral-based oil.

It has the following characteristics:

- Not aggressive for seals
- Good anti-wear properties
- A large temperature range by its high viscosity index

Please note: do not use in braking systems and do not mix with brake fluids!

Available in

Bottles of 250 ml and 1 L.

Application

Hydro10 is a special oil for hydraulic clutch systems and where-ever the manufacturers demand a mineral-based oil.
